Splitboard Crampons

CRAMPON INSTRUCTIONS

1) Attach the included longer Slider Pin to your bindings using a girth hitch (see right). You must use the LONGER Slider Pin with these crampons.

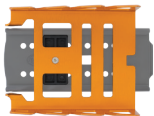

2) **Fixed Mode:** Rotate the black block parallel to the crampon. Slide the notch at the back of the crampon under the heel pad. Align the holes of the crampon with the touring bracket holes and slide the pin through to secure the binding and crampon.

FIXED MODE

3) **Mobile Mode:** Rotate the black block perpendicular to the crampon, then slide the binding onto the block and align the holes of the crampon with the touring bracket. Slide the pin through the holes to secure the binding and crampon.
